

OLD SOLDIERS NEVER DIE

THEY CAN LIVE FOREVER

Your old soldiers can enjoy new life with the Galaxy Conversion Kit from Arachnid. Transform those battle-scarred games into profitable Galaxy games. Acknowledged as the soldier of the future, Galaxy conversions are more than a pretty face. This conversion kit will upgrade your old game to include all of the latest developments in electronic darts.

Profits sky-rocket with Top Gun Challenge, a competitive dart ladder that ranks the top ten location players on the screen and declares a "House Champ." Top Gun Challenge keeps your machine earning strong after league play and during the off season.

Just a few of the Galaxy features with the conversion are Automatic Player Change (operator selectable), Double Bullseye (operator and player selectable), and Smart Target (the target knows the difference between dart hit and finger touch).

The conversion kit makes running leagues truly easy. All player league statistics are automatically recorded and stored in the game. Score sheets are eliminated making league

play more enjoyable and hassle-free to players. Team names and individual player names are even displayed on the screen during league play. A new dart game joins the list of favorites - Master's Out is a double, triple or bullseye out game and is FREE with the conversion kit.

After making the Galaxy conversion, more possibilities are available through Arachnid's League Master System. League management is further enhanced with a modem and remote information retrieval. Contact Arachnid for details on League Master System.

Any English Mark Darts game with a monitor (Series 6000 or higher) is a candidate for conversion. Each kit contains a main board, power supply, league card reader, new Galaxy-style decals, new Arachnid Web, wire harness and complete instructions with templates.
